

“My Acclaro” Dropbox Translation Connector

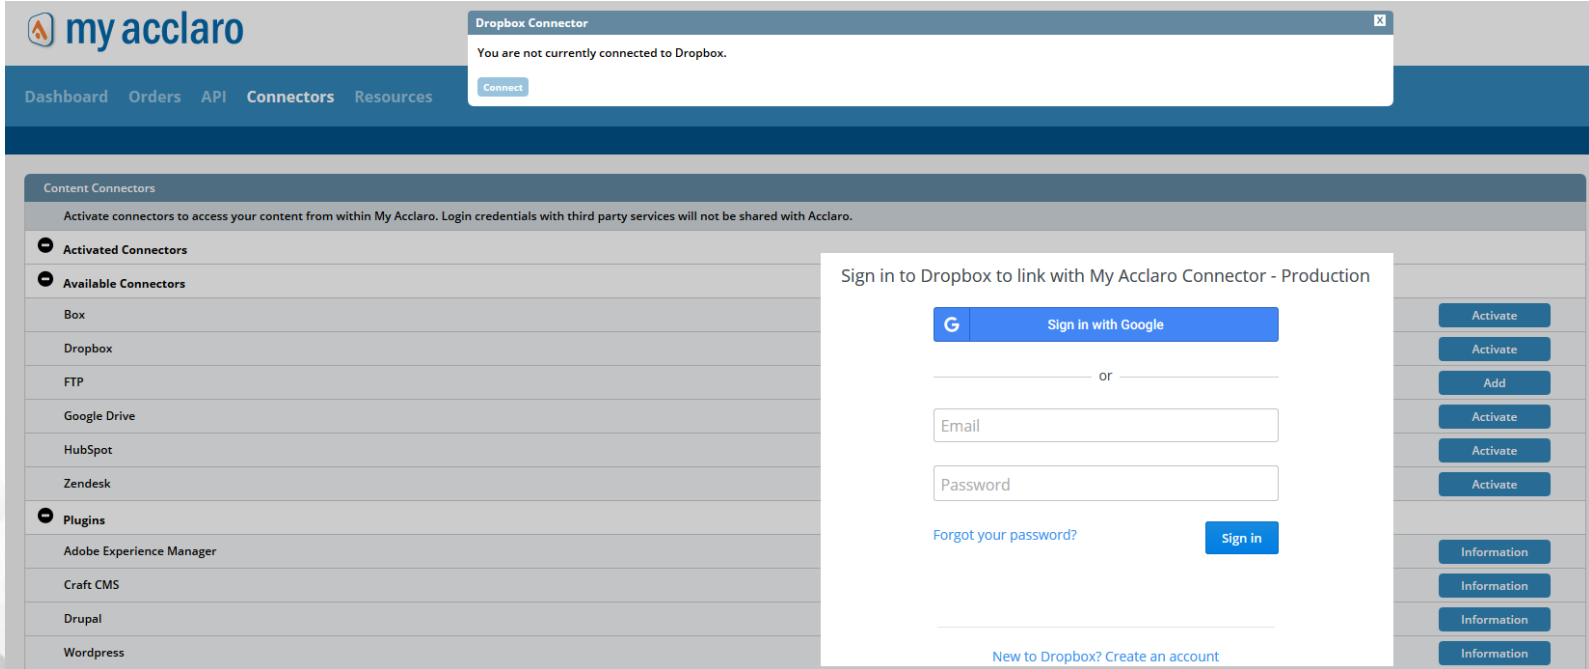

About the Connector

- ✓ Authenticates with Dropbox user accounts
- ✓ File picker access to Folders & Files
- ✓ No limits on uploaded content
- ✓ Automatically receive translated content back into Dropbox folders

Step 1

In My Acclaro, Activate the Dropbox Connector & Grant Access

The screenshot displays the 'my acclaro' dashboard. At the top, a navigation bar includes 'Dashboard', 'Orders', 'API', 'Connectors', and 'Resources'. A 'Dropbox Connector' notification box states, 'You are not currently connected to Dropbox.' with a 'Connect' button. The main content area is titled 'Content Connectors' and includes instructions: 'Activate connectors to access your content from within My Acclaro. Login credentials with third party services will not be shared with Acclaro.' It lists 'Activated Connectors' and 'Available Connectors' (Box, Dropbox, FTP, Google Drive, HubSpot, Zendesk). A 'Plugins' section lists Adobe Experience Manager, Craft CMS, Drupal, and Wordpress. A modal window titled 'Sign in to Dropbox to link with My Acclaro Connector - Production' is open, featuring a 'Sign in with Google' button, 'Email' and 'Password' input fields, a 'Sign in' button, and a 'Forgot your password?' link. On the right side of the modal, there are buttons for 'Activate' (repeated five times) and 'Information' (repeated four times). At the bottom of the modal, a link reads 'New to Dropbox? Create an account'.

Step 2

Create a New Order and Select Dropbox Files for Translation
