A CCLARO Translating Global Business

"My Acclaro" Marketo Translation Connector Overview

Marketo Connector

- Authenticates with Marketo corporate accounts
- Supports Translation of Emails, Landing Pages, Templates and Snippets
- Easy My Acclaro translation ordering with the Marketo File selector dialog
- Automatically receive translations back into Marketo

Getting Started Instructions

- 1. Notify your Acclaro Project Manager that your organization wants to use the My Acclaro Marketo connector.
- 2. Your PM will then request the following information to update all your user's My Acclaro accounts to have access to Activate their 'Marketo Connectors':
 - Munchkin ID
 - Client ID
 - Client Secret
- Train your users with the following steps for using the Marketo Connector to get their Marketo content translated by Acclaro.

Step 1: Activate the Marketo Connector

Step 3: Complete Order Details & Submit

*Reminder: Select 'Marketo' choice in step 4: 'Delivery Options'

Delivery Options

All completed files will be accessible for pick up at any time from the My Acclaro portal.

Select your delivery options below for this order.

Send Email:

- Confirming order submission.
- When a quote for this order is available for review.
- When this order is ready for review or completed.
- For each individual file that is ready for review or completed.

Email Addresses (use commas between addresses):

ifrimere@acclaro.com

Optionally upload translations to:

- FTP in the "Acclaro Translations" folder.
- HubSpot as a translation of the source.
- Marketo in the "Acclaro Translations" folder.
- Zendesk as a translation of the source.
- Do not upload translations to a connected service.

To enable cloud services click here to set up connectors.

Step 4: Automatically Receive Translations Back in Marketo
